Claims

[c1]	1. A method for providing rebates to automobile owners based on purchases
	made at participating retailer locations, the method comprising:
	selling an automobile to a customer wherein the customer is provided with a
	customer identification badge containing a plurality of customer information;
	retrieving the customer information stored within the customer identification
	badge at a point of sale;
	transmitting point of sale purchase information and the customer
	information to a rebate processing center remote from the point of sale; and
	providing a rebate to the customer wherein the rebate is calculated based on
	the purchase information.

- [c2] 2. The method of <u>claim 1</u>, wherein the customer identification badge expires after a predefined time interval.
- [c3] 3. The method of <u>claim 1</u> wherein the customer identification badge comprises a magnetically encoded wallet card.
- [c4] 4.The method of <u>claim 1</u> wherein the customer identification badge comprises a bar code.
- [c5] 5.The method of <u>claim 1</u> wherein the customer identification badge comprises a persistent memory module having input and output capabilities wherein the module is attached to the automobile.
- [c6] 6. The method of <u>claim 1</u> wherein the rebate comprises a check mailed to the customer at quarterly annual time intervals.
- [c7] 7. The method of <u>claim 1</u> wherein the rebate is electronically deposited into a bank account specified by the customer.
- [c8] 8. The method of <u>claim 1</u> wherein the purchase information comprises a rebate amount that a participating retailer is willing to pay.
- [c9] 9. The method of <u>claim 1</u> wherein the retailer provides payment to the rebate processing center to pay for the rebate.

[c10]	10. The method of claim 1 additionally comprising transmitting the customer
	information from the automobile dealership to the rebate processing center.
[c11]	11. The method of claim 1 wherein the automobile is leased to the customer.
[c12]	12. The method of claim 1 wherein the automobile is rented to the customer.
[c13]	13.A system for providing rebates to automobile owners based on purchases
	made at participating retailer locations, the system comprising:
	a first computer configured to encode a customer identification badge with
	customer information pertaining to a customer who has purchased an
•	automobile;
	a second computer at a participating retailer location, the second computer
	configured to:
	(i)retrieve the customer information from the customer identification badge
	at a point of sale; and
	(ii)transmit the customer information and point of sale purchase information
	to a third computer at a rebate processing center; and
	a third computer at a rebate processing center, the third computer
	configured to:
,	(i)receive the point of sale purchase information and the customer
	information from the second computer; and
	(ii)generate a rebate for the customer wherein the rebate is based on the
	purchase information.
[c14]	14.The system of claim 13 wherein the customer identification badge is
	configured to expire at a predefined time period after it is encoded.
[c15]	15.The system of claim 13 wherein the customer identification badge
	comprises a magnetically encoded wallet card.
[c16]	16.The system of claim 13 wherein the customer identification badge
	comprises a bar code.
[6] 7]	
[c17]	17.The system of claim 13 wherein the customer identification badge
